

CONGRESS IS EAGER TO CUT BIG EXPENSE

Desire to Economize Is Real
Reason for Holding Army
to 175,000.

WILL NOT CANCEL DEBTS

Lawmakers Are in No Mood to
Help Foreigners Achieve
More Power.

BY DAVID LAWRENCE
(Copyright, 1921)

Washington.—No better proof of the tendency to return to normalcy in a hurry could be given than the overwhelming vote by which both houses of congress have just passed over President Wilson's veto the bill to reduce the army from 230,000 to 175,000 men.

Democrats joined the Republicans not because of any desire to take a slap at the White House but because, as several members explained it today, public opinion in all parts of the country is insistently demanding that congress economize and reduce taxes. Neither party dares stand in the way of the pruning knife and while it is customary during waves of economy some worth while appropriations are lost in the shuffle, the desire to cut down the size of the army proceeded rather from a feeling that for the next few years at least there would be more than enough ex-service men in the country to respond instantly to an emergency call.

Back of the fight for a larger army has been the argument that while the number of privates might be reduced, officers could not be kept unless the army organization were large enough to hold them. But there, too, members of congress are to meet the plenty of officers will be available for the next few years at least out of the ranks of the world war veterans.

Took Baker's Advice

President Wilson sent his veto message upon the advice of Secretary Baker, who of course, lives in the atmosphere of the general staff where the desire to maintain a large army as to keep enough officers on duty and particularly to enable officers to hold their rank is not an insignificant or unnatural factor in the psychology of the situation.

In congress, however, there has been an almost return to conditions as they existed before the war when both the army and navy had to beg repeatedly for appropriations. The irony of the present situation is that while Secretary Baker and Daniels and the Democratic administration bore the brunt of the criticism leveled by the National Security league and similar defense societies for the unpreparedness of the United States on entering the World war, it is the Republican congress which today is compelling the reduction of the army to 175,000 and it is a Democratic president who is contending for the viewpoint of Theodore Roosevelt, who used to say the peace-time army of the United States ought not be less than 250,000 men.

Stop All Loans

The true significance of the temper of the nation is not to be judged alone by the reduction of the army. The spontaneous outburst in the senate against the suggestion from abroad that America be asked to cancel the allied war debt is another symptom of normalcy. Just as before the war it would have been regarded as out of the question for the United States to loan money to European countries to assist them to reach either political or economic stability so any hint or remark that speaks of loaning money to foreign governments is promptly resented. This, however, is not only true of Republicans but Democrats. Carter Glass, senator from Virginia, warned Europe when he was secretary of the treasury that America had ceased her loans to foreign governments and was going out of the banking business. Republicans are taking the same position and the move to prohibit by statute the making of any foreign loans may go through congress more easily than most people suppose.

The reason for this attitude may be misunderstood abroad as selfishness or indifference to Europe's woes but it is really a reaction in Washington against financial transactions with Europe at a time when domestic re-consideration requires every resource. Some of our legislators, indeed, will soon begin to betray signs of nervousness over the payment of interest by the allies on present debts and the deferring of those payments may occasion even more controversy than the vague hints about cancellation of the principal. In other words, judging by the temper of congress, foreign governments may in the pay interest on the present loans in order that the United States by taxation may be reduced and thus individual income tax rates brought down.

Congress is thinking more in economic than political terms nowadays and members of both parties have their ears sharply attuned to the murmurs of the populace for lower taxes and less governmental expenditure. Congress has a genuine economy streak the like of which has not been seen in this legislative generation.

M. W. Hodge of Stanley, general manager of the Stanley, Merrill and Phillips railroad, was here on business Wednesday.

Mrs. Marie Voss has accepted a position in the transit department of the First National bank.

CHICAGO HEARING
TO BE SHOWDOWN
IN WAGE QUARREL

American Federation of Labor
Backs Demands of Rail-
road Workers.

By United Press Leased Wire.
Chicago.—Labor's verbal bombardment of capital wherein it charges Wall-st. is behind railroad owners in the latter's attempt to abolish national working agreements and reduce wages will take concrete form Thursday when representatives of 2,000,000 railroad employees will give their answer to the railroad owners.

Armed with what is termed by rail union leaders as the "inside information" on the financial situation, Frank P. Walsh was speaking here Wednesday from New York to attend Thursday's hearing before the United States railroad labor board. Walsh was expected to go before the board with E. M. Jewell, president of the railroad shopmen's union, and help labor in its stand against capital.

That the issue between the railroad owners and employees is to be the big showdown between capital and labor is becoming more apparent than ever. The American Federation of Labor is ready to go to the mat with capital in the present fight and has indicated in the railroad workers that they will have the support of organized labor in whatever step they take.

Financial kings of the country may be alarmed before the board, it was said, has assembled exhaustive data on incomes of the country's leading financiers and will ask that some of them be summoned to testify. Those whom Walsh is expected to ask be called include J. Pierpont Morgan, Albert H. Gary and John D. Rockefeller, Jr.

**LABOR FIGHTS FOR
RIGHT TO STRIKE**

Bitter Court Battle Over Kan-
sas Industrial Law Is
in Prospect.

By United Press Leased Wire.
Pittsburg, Kan.—Labor intends to fight for the right to strike when and where it pleases. The state of Kansas is determined to eliminate the strike as a useless economic waste and substitute industrial justice.

That epitomizes the fight here between District President Alexander Howat and other officials of the United Mine Workers of America and the state represented by the Kansas industrial court and the dispirited court. Granted a week's continuance of the hearings on the charge against Howat and his associates, labor forces Wednesday were marshalling their legal forces for an attack on the Kansas industrial court law which Howat has always refused to recognize and has forbidden union members to recognize.

The state is ready to go ahead on three charges against Howat. First, charging contempt of court in issuing a strike order in violation of Judge Curran's injunction with violation of the industrial court law in calling the strike.

Second, charging Howat with violation of the industrial court law in preventing operation of the industrial court law by fining members who take their cases to it for adjudication.

Although miners in two mines were idle in protest against court interference with Howat's strike order, mine officials were inclined to believe there would be no further spread of sympathy during the week's continuance unless the industrial court should take some definite action in the meantime.

**MARTIAL LAW FOLLOWS
INVASION OF SAILORS**

By United Press Leased Wire.
Berlin.—Martial law has been declared in Petrograd as a result of invasion of the city by mutinous sailors from Kronstadt the naval base of the former Russian capital, according to dispatches received from Helsinki.

Considerable fighting was said to have taken place in Kronstadt between the sailors and troops rushed from Moscow. The dispatches indicated the bolshevik troops were defeated as the mutineers were reported to have succeeded in entering Petrograd.

**WOULD HAVE SMOKERS
PAY MORE TO UNCLE SAM**

Washington.—Treasury of the present tax on liquor for medicinal purposes, higher levies on tobacco and cigars and a federal tax on automobiles was urged on the house Wednesday as a substitute for the excise profits tax by Representative Good, Iowa, chairman of the appropriations committee.

SOLONS FIGHT OVER PICTURE OF MR. PHILIPP

Economy Streak Evident When
Objection Is Made to Buy-
ing Portrait.

MARKET BILL INTRODUCED
Milwaukee Assemblyman Has
Bill to Abolish Railroad
Commission.

By United Press Leased Wire.
Madison.—The assembly was thrown into turmoil today over an appropriation of \$1,500 for a painted portrait of former Gov. E. L. Philipp.

Heated debate for more than an hour in which the policy of economy was urged, took place before the assembly finally voted 53 to 41 to advance the bill to third reading.

Argument followed the recommendation of the joint finance committee that the portrait be purchased. Steven S. Stokowski, Milwaukee, socialist member of the committee, in explaining his negative vote, precipitated the debate. He was followed by John C. Schafer, Milwaukee, who demanded that in the interest of economy, the house kill the bill. From this point the debate went a fast pace. Assemblyman against the measure urged that 70,000 men were out of employment in Wisconsin and the money could be devoted for better purposes.

The assembly had previously awoken from its slumbers when Leander J. Pierson, Milwaukee, attempted to withdraw from consideration by the joint resolution memorializing congress to amend the prohibition law to permit the manufacture and sale of light wine and beer. Frank L. Prescott, Milwaukee, objected and demanded reasons for withdrawal.

"I don't want to hold a club over the members of this assembly," Pierson replied.

The assembly sustained the objection, 55 ayes to 30 nays, a two-thirds vote being required for withdrawal.

Among the important bills introduced was the division of markets bill by the agriculture committee. This bill prepared by the division of markets and agriculture department and said to have the approval of the governor differs but little from the Freehoff bill introduced some days ago and since amended. The Freehoff bill is said to have won objections from the dairy interest because it brings the dairy department under the supervision of the state board of health. The dairy interests want a separate department which is provided in the agriculture committee bill.

Assemblyman F. L. Prescott, Milwaukee, introduced a bill repealing the act creating the railroad commission. The bill provided nothing in place of the commission.

Other bills were:

Financial matters will be considered by the senate meeting as a committee of the whole, it was decided today. The date will not be fixed until after the governor's special financial message is read. The message is expected next Tuesday.

The bill appropriating \$25,000 for formal dedication of the capitol was killed by the assembly judiciary committee. The same committee continued until Feb. 15 hearing on the measure that would place graduates of the law department of Marquette college on the same footing as graduates of the University of Wisconsin.

**NEED \$15,000 TO DEVELOP
BADGER COMMUNITY LIFE**

Madison.—An appropriation of \$15,000 is provided in a bill introduced in the state senate Wednesday by Senator R. G. Nye, Superior, to develop community life in Wisconsin.

The bill creates a state community council consisting of a representative from each of the various state departments as well as from the state university. The council shall assist and aid county community councils which are to have charge of developing home and community life.

Gustave J. Keller has returned from the University of Wisconsin, Madison, to spend the period between semesters with his parents, Mr. and Mrs. Gustave Keller, St. Paul.

**BASEBALL CROOKS
ON TRIAL MARCH 14**

Judge Dever Declares He Will
Not Permit Postpone-
ment of Trial.

Chicago.—The eight Chicago White Sox ball players who were indicted with Abe Attell and several others for throwing the 1919 world series at Cincinnati, will go on trial here March 14, it was announced Wednesday.

Their trial will be held before Criminal Court Judge William Dever. Dever announced he would see that the case went to trial on schedule.

"I will have the decks all cleared and will not consider any requests for postponements," he said.

"It must go to trial immediately."

Only two of the indicted players appeared in court today. They were Hal Felsch, outfielder, and Buck Weaver, third baseman. Both these players plan to make a fight.

Weaver is reported as willing to wager \$500 that he will be with the White Sox this coming season.

All the other players excepting Hal Felsch were represented by counsel.

Assistant State's Attorney George E. Gorman announced he expected to start extradition proceedings against Chase and R. Brown, said to be a New York gambler. Neither of these two were represented.

That difficulty is expected in getting a jury to try the players was indicated by Dever's action in instructing the sheriff to call a special venire of 100 men for the trial.

Trotzky As He Looks Today

This is the latest picture of Trotzky, the Bolshevik army chief, who is said to be grooming his troops for a spring offensive against Poland, a drive at Constantinople and an invasion of India through the Caucasus. He was snapped on his arrival at Petrograd from Moscow recently.

PAT MARTIN RAGES AT STATE OFFICERS

By United Press Leased Wire.
Madison.—Wisconsin University authorities were scored by P. H. Martin, Green Bay attorney, Tuesday night for refusal to allow Miss Mary MacSwiney, representing the Irish republic, to speak in the student assembly.

"When I realize that the courtesies were extended to Emma Goldman and others striving to tear down civilization and that Miss MacSwiney was coldly refused, it makes my blood boil," Martin told the audience just before the arrival of the sister of the deceased lord mayor of Cork.

Miss MacSwiney addressed two meetings at the capitol, one in the assembly chamber and an overflow meeting in the rotunda.

"England borrowed five billion dollars from America and never a penny of it will you see again," she told the audience.

"England is using part of this money which America loaned to promote liberty, to stamp out liberty in Ireland."

The speaker said America would be in disgrace until the government recognized the Irish republic.

**TRADE WITH RUSSIA
WILL REDUCE H. C. L.**

Washington.—Resumption of trade with Russia will reduce bread prices in the United States and Argentina, but resumption soon is possible only by American extending large credits, Arthur Bullard, chief of the Russian division of the state department, told the house foreign relations committee Wednesday.

Bullard explained that Russia, if revived by trade, can, as before the war, supply western Europe with two-thirds of its breadstuffs and relieve the European demand upon the United States and South America for wheat.

Since Russian money is practically worthless, "direct barter" of commodities is necessary, unless credits are granted to soviet Russia, Bullard said.

At present, he said, "all Russian cities and many large areas of the country are starving and must have imports of American farm machinery and supplies before they can produce wheat for western Europe."

Bullard revealed that "the United States treasury accepted one and possibly more" shipments of Russian gold before title was challenged on the ground that it was stolen.

**INDUSTRIOUS HENS
CUT PRICE OF EGGS**

By United Press Leased Wire.
Chicago.—The bottom has fallen out of the egg market due to an early spring which has caused hens to start laying their eggs earlier than usual, according to dealers here Wednesday.

Since Jan. 20 eggs have declined 26 cents a dozen and in the last two days they have fallen 11 cents. Eggs are now selling for 47 cents here. Markets in other cities have experienced similar declines.

"The egg supply is more than double what it usually is this time of the year," said Ed Westerfeld, a large retail grocer.

"This is due to the mild weather and has caused hens which do not ordinarily lay until March and April to start laying now."

Against the drop in egg prices, however, is a new in poultry prices.

NO CHANCE FOR WAR WITH U.S., BRITAIN SAYS

English Foreign Office Denies
Responsibility for "Path
to War" Story.

SERIOUSNESS IS ADMITTED

Plenty of Chance for Controversy
in British-American
Relations.

London.—The foreign office today denied responsibility for the statement on Anglo-American relations made to the American correspondents by one of the highest British officials engaged in Anglo-American affairs.

The quick reaction from America was such that despite the fact the statement was made by this high official at the foreign office, the following official communiqué was issued:

"The statement on Anglo-American relations quoted in the English press as appearing in the American press was made without the authority or knowledge of the foreign office and does not, in any way, represent the views of the foreign office, upon the present or future state of relations between the two countries. On the contrary, the foreign office is confident that any questions arising between Great Britain and the United States can well be settled without difficulty, whether with the existing or the succeeding administration."

The foreign office statement, it is noted, does not deny the statement was made but declines to accept responsibility for it. The statement was made in the presence of many witnesses. The United Press dispatch quoting it was submitted to the foreign office on Tuesday and was formally approved as being a correct report of the interview.

The warning by an official of the British foreign office that Britain and America might drift into war, caused as great a sensation in England as in the United States.

"There has been a drift we cannot afford to ignore," the Daily News declared editorially.

This newspaper published extracts from the foreign office spokesman's statement as called back to England from America where the warning was first printed.

"That there has been a drift, we cannot afford to ignore," said the News.

"Points in the controversy over oil, naval rivalry, the cables and the Anglo-Japanese alliance need no seeking, but there is not one of them that ought seriously to compromise the good understanding that has traditionally existed between the two nations."

Americans here were mystified as to the meaning of the warning. The insistence of a government official that there was a divergence of American and British views that all of London's British assets was puzzling to them. It was learned authoritatively that the British, frequently and formally have suggested to Washington that war debts should be cancelled. Government officials here cannot understand the attitude of the United States in refusing to do so.

Divergencies over the oil and debt question are apparently the most serious now. The British resent the alleged American attitude that Great Britain is grabbing all the oil lands. The British assert that American oil interests took from the English a most valuable oil concession of 6,000 square miles in Costa Rica and repeated such action in Columbia. British officials also charge that American oil interests have their eyes on British concessions in Venezuela with the intention of forcing Venezuela to cancel them.

BRITAIN LAUGHS AT LLOYD-GEORGE

Premier's Dramatic Fear for
Future, Evokes Only Scathing
Criticism.

By United Press Leased Wire.
London.—Premier Lloyd George's dramatic declaration that he was "filled with dread" over the "task" Britain is facing was received jeeringly by the press Wednesday.

Electrocrating and politics were the words used by the newspapers in their comment on the speech Tuesday before the Welsh liberals.

"Few hearts will be wrung by his whippers over personal criticism," the Times declared.

The premier made only two interesting remarks. He said, "I am clear now in reference to general elections and an intimation that the future foreign policy of the empire will include maintenance of the empire."

The Daily News declared that the premier's "verbal outbursts" were a "resistant and wearisome."

The Daily Mail sneered at the "foibles of the statesman who regards himself as indispensably indicated in the assertion that he would fight."

J. M. Blandford of Chicago, spent the week and in Appleton visiting friends.

Isadora Duncan of Kalamazoo, visited friends here Tuesday.

N. S. Brown of the ... visited ...

KELLER SPEAKS TO BUSHEY STUDENTS

Urges Them to Obtain Thorough Training Before They Leave School.

An inspiring address on the "Elements That Lead to Success," was given by Gustave Keller before the students of Bushey Business college Tuesday morning.

He stressed the fact that too many students are over-anxious to leave school and do something in the business world. They leave before they should and lack the training which makes them broad enough to make their way successfully.

The speaker urged them to be thorough in their preparation for business life. There is an increasing demand for highly trained office help, he said, and a surplus of the other kind.

Mr. Keller also urged the students to cultivate a pleasant disposition. So many people overlook the importance of this asset in a successful life. It was not alone the student or office clerk that lacked a pleasing manner, he pointed out, but many times the employer had the same failing.

Mr. Keller spoke for about 45 minutes, relating out of his experience many bits of advice that would prove helpful to the young person leaving school.

The talk was one of a series at the business college at intervals of once or twice a month by Appleton business or professional men. Musical selections and readings also are given each Tuesday morning by students from Lawrence conservatory and school of expression. This week's numbers were two vocal solos by Mr. Johnson of the conservatory and a short talk by Mr. French of the expression department.

NAME DELEGATES TO FARGO MEETING

Rotary Club Will Send Two of Its Officers to District Convention.

W. O. Thiede, president, and George R. Weitangel, secretary, of the Rotary club were elected delegates to the convention of the fifteenth Rotary district at the weekly meeting Tuesday noon in the Y. M. C. A. The convention is to be held at Fargo, N. D., March 23 and 24.

Frank R. Sherwood, Madison, a member of the state board of health, was the speaker. He told the Rotarians of some of the activities the board is pushing to remove menaces to health, and gave much useful information on general health topics. Rotarians could hardly qualify for the rank of tenderfoot scout, judging from the way they tried to tie square knots in bits of cord distributed by E. R. Henderson, scout executive. He furnished the materials and told the members to tie their own knots to be worn during scout anniversary week as a reminder to do a good turn daily. Most of the men had to seek assistance.

NO SPRING VACATION FOR HIGH SCHOOL PEOPLE

Spring vacation at Appleton high school will be dispensed with this year in order to make up for the week that was lost at the beginning of the school year caused by the late arrival of additional seats. The action of the high school will not affect the closing of the district schools.

Visits Stevens Point
Dr. T. D. Williams, superintendent of the Appleton district of the Methodist church, was at Stevens Point last week to inspect a new recreation hall just completed by St. Paul Methodist church. He also conferred with the Rev. G. M. Calloun, chairman of the district program committee.

Speaks at Marinette
Gustave Keller was the speaker at a joint meeting of courts of the Catholic Order of Foresters at Marinette last week. He spoke on fraternal orders and the work they were doing. He also described the quiet service rendered by the Foresters during the war.

Mrs. Clarence McFarland, Franklin-st., accompanied her sister to the hospital in Oshkosh.

Harry Brown of Neenah, was an Appleton business visitor Monday.

Comfort from a jar of Resinol

Only those who have tried it can realize the relief that Resinol Ointment brings to sufferers from skin trouble. Even in severe, well-established cases of eczema or other itching disorders it usually allays the irritation promptly, and hastens the healing.

The same gentle medication which makes Resinol Ointment so beneficial is also present in Resinol Soap and Resinol Shaving Stick. Every discriminating man and woman should adopt them for daily use. They are nature's aids to a more perfect skin. At all druggists.

Are Prices Lower?

That they are considerably lower is proven in this Report of Present Prices compared with those of September 1st, 1920, at which time the actual prices were jotted down. Not Guess Work—But Facts.

The long and dreary period of high prices is safely over. The dawn of a bright day with lower prices is now at hand and is driving away the clouds that made people resist buying, even necessities, because of high prices.

The days of thrifty living are back again. From now on, things you buy will be worth what you will be asked to pay for them—and that is all that any reasonable person desires.

You Can Buy Now And Be Safe!

Buy what you need—and all you need. Prices now are as low as can be expected for some time.

"Money's Worth"—that's the big thing all desire to give and to get.

This store's aim has always been to give the most for the money.

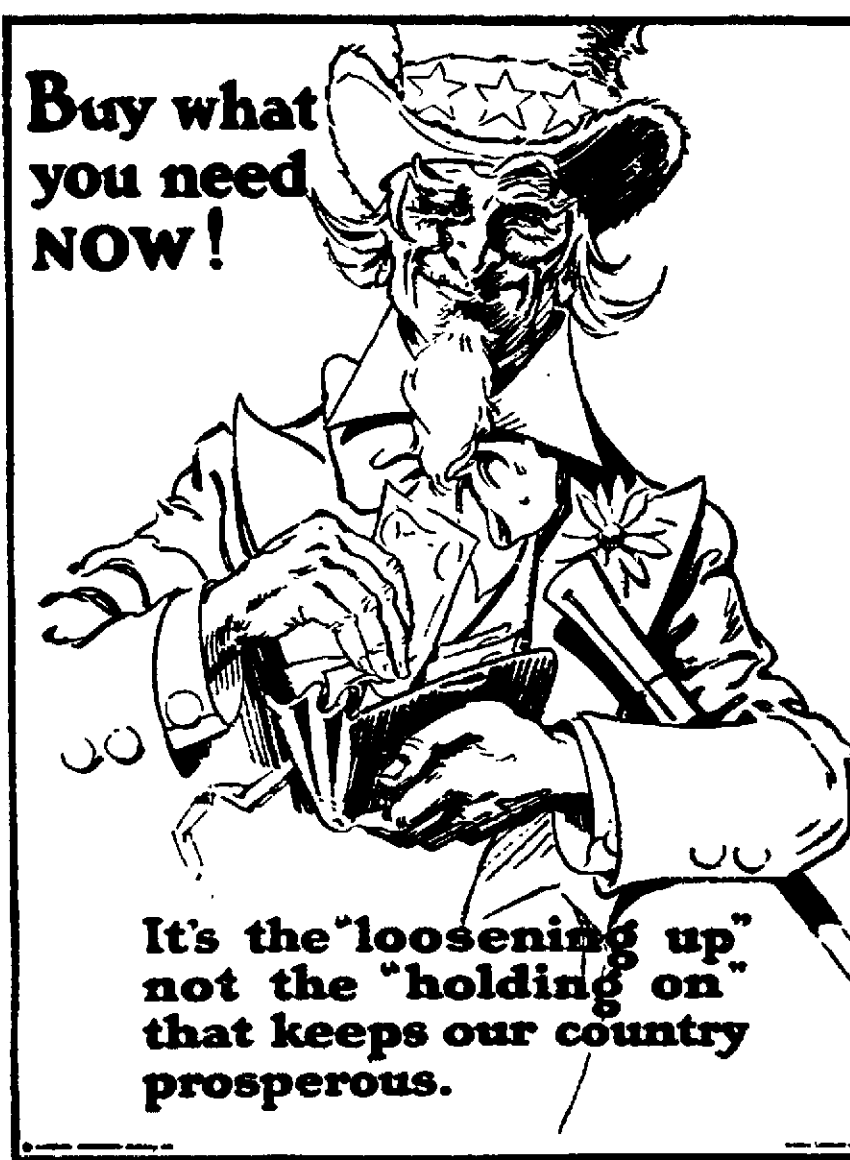

We are glad to start this new season with money worth more—yes, far more delighted than you can possibly be to receive it.

The new merchandise arriving daily at our store looks splendid to use and it surely will to you too; and when one looks at the new price tickets and notes the greatly lowered prices, it brings forth "ear to ear smiles" on all that see them.

So with Our Report of Lower Prices, we face the Spring Season with every hopeful expectation of serving you vastly better this year and bringing back to you the old pleasure and satisfaction of having your money buy more.

STUDY OUR PRICE REPORT!

Watch our announcements. They are valuable to you from the standpoint of buying quality merchandise at savings.

THESE ARE OUR REGULAR PRICES ON MERCHANDISE IN STOCK—NOT SPECIAL SALE PRICES

CONGRESS AND THE ARMY

Had we been dependent upon congress to provide for the national defense and for the successful prosecution of the war four years ago it would have been won by Germany long before we got started. By this we mean had the initiative and responsibility for war measures devolved upon congress the war would have been a monumental failure. Everybody knows this without argument. We would not have had the draft law, we would not have sent troops to France, at least not until too late, we would never have stood up for American rights on the high seas, had the leadership for action rested with congress. As it was the defense of our rights and protective war measures had to be hammered through both the house and the senate by a determined, courageous, capable president, supported by competent military authority.

Since congress knew so little how to conduct the war, except under the pressure of those with foresight and resourcefulness, it follows that congress is not to be regarded as an authority upon adequate national defense in time of peace, or under such unusual conditions as exist today. This might not be true if we had a different congress but it is unquestionably true of the present congress.

Disregarding the advice of such authority as the war department, Gen. Pershing, Gen. Bliss and President Wilson, responsible head of the nation in military as well as civil affairs, the house and senate have reduced the size of the army over President Wilson's veto to 175,000 men, which in reality will be 150,000 men for the reason that the appropriation for the army will care for only the latter number. Less than eight months ago congress, in determining the question of army reorganization, provided for a force of 280,000 men. Before the session was concluded it made an appropriation for only 175,000 and now it is to cut the number to 150,000.

Conditions are no different today than they were a year ago. Europe is in a chaotic state, the solution of peace is still surrounded with uncertainty, while congress itself has blocked that course by the United States which would have led to disarmament as one of the great results of the war. The part that America is to play in the final determination of peace and in an association of nations for the enforcement of peace is unknown. Nothing is yet stabilized, nothing sure. If America is to stand alone there are two continents in this hemisphere to protect. Our future relations with Japan are filled with grave possibilities and are yet to be defined. Mexico offers a less menace, but still a menace.

The army as reorganized is a great school of Americanism. It is and must always remain the nucleus of national defense. It is a benefit to those who compose it, and it is our insurance against the uncertainties of the international situation, to say nothing of bolshevism. Congress is not an authority upon military affairs. It has not been consistent in its handling, or rather man-handling, of the army. The war and navy departments are authority. So is the president, so are our ranking generals and commanders. The judgment of all, when approved by the president, should fix the policy of the nation. Congress is making a bid for popularity through petty economy. It is "trimming" on the army without knowing whether disarmament is possible, while it continues to send \$100,000,000 to its constituents and waste the public funds in a multitude of ways.

THE GROWTH OF THE LEGION

The American Legion developed from a lucky youngster into a full-fledged American fighting organization in the year just ended. From national headquarters at Indianapolis comes word that the number of members has increased to 1,111,111 posts were

added during 1920. Posts were established in the farthest corners of the globe, including Argentina, Belgium, Santo Domingo, Peru, Chile, China, Guatemala, Japan, Poland, Siam, etc. Starting in 1920 with 50 branches and 5,000 members, the Women's Auxiliary finished with 200,000 members and 1,700 units.

Nothing could be more gratifying to true Americans than this wonderful growth of an organization whose influence for patriotism and good citizenship has been demonstrated in countless ways. Members of the Legion have come to the support of law and order in communities where lawless elements sought to gain the upper hand. While keeping aloof from partisan politics, the Legion has taken a determined stand on vital public questions. It has sought the deportation of professional trouble makers of alien nationalities who turned liberty into license.

The American Legion has become a potent force in opposition to that brand of disloyalty and anti-Americanism which masquerades under the name of political reform. It maintains a healthy opposition to radicalism which seeks to undermine American institutions and menaces American democracy. Finally, it is an organization which will not permit the American people to forget the World war, the part they played in it and the issues that were at stake in this great conflict. As the years go on the power and influence of the American Legion for good and for wholesome, healthy Americanism, and for the security of this government as handed down to us, will increase.

PRESERVE THIS LANDMARK

The state of Wisconsin played a large part in the alluring history of the great Northwest. Its Indian life and traditions alone lend charm to its lakes and rivers and forests. Its territorial history is indissolubly linked with the Indian, with the names of notable explorers, with the achievements of empire-builders. Every true citizen of the state takes a pride in Wisconsin's history.

We have reached a point sufficiently distant from early events to consider seriously the preservation of those landmarks which perpetuate them. We can make Wisconsin the playground of America by reserving to public ownership tracts of land of beauty and historic importance. We can do this without taking one dollar away from private opportunity and the prosperous development of the state. If we make Wisconsin the playground of the nation then we first of all make it a playground for ourselves. The major benefits accrue to our own people.

The other day we referred to a movement to make a state park of the Dells of the Wisconsin river, a region which should unquestionably be owned by the state. There is now a bill in the legislature to authorize the purchase of the famous Rock Hill on the Rock river between Janesville and Beloit. This is one of the most picturesque and striking spots in the state of Wisconsin. The great bluff towering far above the Rock river clothed on its summit with a stand of virgin timber, was the signal tower of that renowned Indian fighter Chief Black Hawk. It is on the main trunk highway leading up through the central gateway of Wisconsin to Minneapolis. It is passed by thousands of tourists. The ground comprises only eighty acres and can be purchased for the insignificant sum of \$15,000. Only recently Rock Hill was threatened with spoliation when its owners announced their purpose to clear it of the timber. The movement to have the state purchase Rock Hill followed and the bill for this purpose is, as we have said, now before the legislature.

It is a fact, we believe, that there is no state park in Wisconsin south of a line east and west which would divide the population of the state equally. This area comprises practically one-third of the state's territory. Southern Wisconsin ought to have a state park and ought to have a large area set aside for that purpose, but that is a matter which can be taken care of later. The small sum for which historic Rock Hill can be acquired should cause the legislature at this session to authorize its immediate purchase. It is to the interest of the whole state that these landmarks be preserved for the benefit of Wisconsin and posterity. The cost is so trifling to the individual taxpayer that the question of money should not enter into the matter at all.

JENNY IN AQUARIUM

New York.—Jenny Lind captured America when she came to this country in 1850. A marble bust of her was placed in the city of New York.

Health Talks

BY WILLIAM BRADY, M. D.
Noted Physician and Author.

Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but every letter will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

IS TUBERCULOSIS CONTAGIOUS?

Practically every adult has tuberculosis. Only three per cent of us become aware of the fact, for only in three per cent of us does the disease light into activity. Latent or smoldering or inactive tuberculosis produces no symptoms and does not affect the health. When the disease produces symptoms and impairs the health we say it is active tuberculosis.

Practically all of us become infected with tuberculosis in infancy or early childhood. Whether this infection occurs through the agency of milk from tuberculous cows—most of us have drunk many gallons of milk from cows that had tuberculosis—or whether the infection is acquired in another way, we do not as yet know. But we do know that the proof of latent or inactive tuberculosis is found in nearly every autopsy or post-mortem dissection made upon adults in this country, no matter what has caused death.

There is every reason to believe that a common mode of infection with tuberculosis is by prolonged intimate personal association with any one who has the disease in an active state. Thus, if either parent, or a nurse, or a relative, or a guest, or a boarder lives in the house where a child or infant lives, that child or infant is almost certain to be infected with tuberculosis, although the child may not then or ever afterward develop activity or suffer impairment of health from the infection. There is nothing in the notion that tuberculosis is inherited. It is acquired by infection.

Is there danger of infection involved in a casual meeting with or a visit to one who has active tuberculosis of the lungs? No danger whatever, provided the patient is intelligent and does not spit in your face—and a lot of people who consider themselves refined, polite, intelligent folk do indiscriminately spit in everybody's and anybody's face. Any one who coughs or sneezes without carefully covering nose and mouth with handkerchief or hand spits in the face of any associate who happens to be within a radius of ten feet, and ought to be there and then punished for the offense. In visiting or meeting an individual with active lung tuberculosis, or with any other respiratory infection (which includes "colds" and diphtheria, and ordinary sore throat), you are not in any danger, if you keep outside of his five-foot barrier, for in ordinary conversation one sprays the atmosphere round about with fine invisible droplets of saliva or secretion which unquestionably do convey the germs of disease to a distance of not more than five feet from nose or mouth.

Articles of clothing, materials, books, or other objects touched or used by persons who have active tuberculosis do not convey the disease, and are not apparently or visibly soiled or befouled such articles may be used with impunity by other persons. Toilet and other personal articles which are likely to be contaminated repeatedly with saliva or sputum may, for a short time, harbor the living bacilli of tuberculosis, and should not be used by any other person.

One with active tuberculosis should not cook or handle food or other eatables for other persons.

QUESTIONS AND ANSWERS

Baby a la Brady

We call our baby a Brady baby, for we have raised him according to your teachings. We are proud of the result, though I suppose that is every parent's feeling. He has never worn any stiff shoes, only soft moccasins. Lately several ladies have been telling my wife the baby ought to have stiff shoes to brace his feet and ankles. The ladies' propaganda seems to be having some effect on friend wife. I wonder if now she possibly has a different opinion of a baby who is not possibly as lively or healthier or travel better than he does. (H. A.)

ANSWER.—If the ladies have their way your baby will first have foot braces, then arch props, then abdominal splints, then a spinal or shoulder brace, and finally a nice pair of crutches and a wheel chair. The moccasins are all right, and his feet and ankles will become stronger and better developed in moccasins than in any stiff shoes.

Not on, But in the Foot

I have a bunion on my foot and cannot get it off. I have tried several remedies, but they do not seem to remove it. (C. C.)

ANSWER.—Of course no remedy can remove a bunion. It is not on, but in the foot. A bunion is an enlargement of the tips of the bones making up the great toe joint, with partial dislocation of the joint, being caused by freak shoes which distort the foot. The only cure for bunion is operation, in which part of the thickened bone end is removed and the normal position of the joint restored. Short of this you can expect nothing but alleviation or temporary relief of the discomfort or pain caused by bunion.

Twenty-Five Years Ago

Wednesday, Feb. 12, 1896

A. A. Nugent of Kaukauna was an Appleton visitor. Leopold Hammel of Milwaukee was attending circuit court.

Dr. H. E. Ellsworth was confined to his home with a severe cold. P. Z. McGovern, principal of the Ryan high school, attended the meeting of the Northwestern Wisconsin Teachers' association at Milwaukee.

The Nekeva Paper company was planning to put in another paper machine in its plant at Nekeva.

Before the damage suit of Miss Anna Zerk of Menasha against Valentine Landgraf, hotel keeper of the same city, went to trial at Oshkosh it was settled by Landgraf paying Miss Zerk \$300 and assuming the legal costs already incurred. The case grew out of an accident when Landgraf's "bus team ran away. Miss Zerk was knocked down at a crossing, the wheels of the bus passing over her body.

Miss Anne Geenen, formerly with Arnold Greenbaum, and her two sisters were arranging to open a drugstore in the West block. They were planning to make a specialty of fine dress goods.

An undertaker of Iron Mountain advertised bargain sales of job-lots of ready made coffins in the Gazette of that city. He said: Call and examine our stock and be convinced that we can make you happy in the price of goods should you be mournful over the loss of a relative or friend.

The advisability of establishing a carrow to ring a certain hour was to be discussed at a meeting of the Good Citizenship League at the council rooms. Mrs. Louis Perrot was recovering from a severe attack of grip.

RICHES GO UNCLAIMED

London.—Reward will be paid for authentic information concerning the wedding of George Sharp and Ann Rainford 142 years ago. Attorneys are trying to find an heir to millions left by Frank Sharp, bachelor.

"THE COST" HIT AGAIN

Capetown.—The H. C. L. is decreasing even in Africa. Women of the Fairhaven Work Party have started bakery, selling bread at lower than market price. Their business is too big for them to handle at present.

A Poor Year For Ice

By Frederic J. Haskin

Washington, D. C.—The chances for a good crop of natural ice this winter are slim, and the chances for an ice shortage next summer are correspondingly good.

Haskin

The winter is said in most sections, and comparatively little ice has been harvested so far. This may not seem to affect the city dweller, who knows that the ice in his glass never grew in a pond. But it does affect him because this country is more dependent upon natural ice than most of us imagine. Two-thirds of the cities now make their own ice. Yet of the 48,000,000 tons of ice used in a year, nearly half is natural ice. So, even while the cities are reflecting comfortably that their ice supply is not dependent on nature's whims, their supply of meat, butter, fish, milk and other foods may be hit in price, quantity and quality by a poor crop in the ice belt.

People are relying on ice more and more, and for all sorts of purposes. Ever-increasing quantities are consumed for storing perishable foods, for cooling purposes in bleaching and dyeing establishments, munitions works, glue factories, sausage making plants, theaters and morgues. Textiles and furniture are put in cold storage. Office buildings have their temperatures reduced to a comfortable figure in hot weather by refrigerating machinery. The air in hospitals is artificially cooled in cases of fever and tropical diseases. Hotels are such voracious consumers of ice that the largest have their own ice plants, and all the others are big purchasers.

But all the possibilities of refrigeration are not exhausted, for new uses are now and then discovered. A St. Louis man recently gave some thought to the demand for summer fruits in cold weather and the high prices they command in hotels and fruit houses, and he came to the conclusion that it would be a good thing if some of the perishable kinds could be kept in cold storage. He tried his scheme with strawberries and cherries, and stored them at a temperature 10 degrees below zero. After eight months the fruit was taken out, soaked in ice water to take the frost out and was used in ice cream, pies, and short-cake. It is said to have been full flavored with a much more natural taste than canned fruits.

Frozen Fruits

After more experiments with tomatoes, plums and berries of various kinds, he was convinced of the practicability of storing perishable fruit. One large baker, he says, now has \$20,000 worth of cherries stored in his plant and draws them out during the winter for fresh cherry pies.

Commercial use of ice for storage constitutes a regular, enormous demand on the ice supply. Use of ice in homes is more uncertain. Last year a moderately cool summer and high prices kept down home consumption to an extent that was keenly felt by ice dealers. Nobody knows what next summer will be, but weather sharks around here who like to put two and two together are saying, "a mild winter, a hot summer."

If we are in for a hot summer one kind of food will surely be affected by a low supply of natural ice. That is milk and other dairy products.

THE QUESTION BOX

(Any reader can get the answer to any question by writing The Appleton Post-Crescent Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This offer applies strictly to information. The Bureau cannot give advice on legal, medicinal, and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. Did they use red gasoline during the war? R. F. W.

A. The Government specifications for gasoline used in aircraft engines required the refiners to take the best gasoline and run it through the distilling retorts again, thus producing the most combustible elements of liquid fuel, and nothing else. It was known as "57 fighting naphtha" and was used only in service planes actually at the front. It was not supplied to aviation training camps either in this country or in France. In order to distinguish it from the best gasoline used in the service by accident or in any way other than that of service at the front, it was colored red with aniline dyes.

Q. What is the word for lightning-fear? B. H. K.

A. "Astrophobia" means fear of lightning.

Q. How can the purity of honey be determined? C. M. F.

A. An implement known as the polariscope is used to study the purity of honey. Pure honey has the faculty of turning plane of polarized light to the left. Whenever honey shows a right-handed polarization it is a cause for suspicion respecting its purity.

Q. What is the difference between the mean level of the Pacific and the Atlantic Oceans at the ends of the Panama Canal? J. C.

A. There is no actual difference in the mean level of the Atlantic and Pacific Oceans at both ends of the Panama Canal. There is, however, a difference of about 15 feet in the tides at Panama. This is due to the shape of the Bay of Panama. As the tide enters the bay, it meets a funnel-shaped line, which gradually contracts the tide as it travels landward. As a result it rises until it reaches a maximum of 10 feet above average sea level. When it flows out, it reaches a point 10 feet below average sea

level, giving a fluctuation of 20 feet. On the Atlantic side the fluctuation of the tide is only 2 feet.

Q. In making fruit or berry pie, the crust often becomes soggy. Is there anything which will prevent this? A. E.

A. Pie crust will not be soggy if brushed over with the white of an egg before the fruit is put in.

Q. When was the first minstrel company in the United States formed? L. L. J.

A. In 1843, the first minstrel company, the Virginia Minstrels, was formed. It consisted of "Dan" Emmet, Frank Brown, "Billy" Whitlock, and "Dick" Polham. The style of performance adopted by them has remained the same ever since, for they danced, sang, played their instruments, and carried on a running dialogue of jokes.

Q. Do starfish swim? T. C. E.

A. Starfish crawl or glide by means of from two to four rows of slender tubular processes or feet, with suckers at the end. The ambulacra feet are thrust out, fastened to the bottom, and by means of them the body is warped along over mussel or oyster beds, rocks or weeds, the arms being capable of slow, but rather complete bending movements.

Q. Where is the slave coast? J. J.

A. This is a geographical name for a division of the coast of Upper Guinea. It owes its name to the active slave trade formerly carried on there.

Q. Who, or what, was first known as El Dorado? H. O. W.

A. This is a Spanish word, meaning "the gilded", and was first applied to a South American king said to have covered his body annually with gold dust, and bathed in a sacred lake; then

And now for the bargains that Grandpa used to drive

Schmidt newly made suits at newly made price of

\$35

Following the Civil war when prices started on the downgrade your Grandfather was a mighty busy man, comparing and combing the market for the tallest values

And in February, 1921, you have, by token of the substantial drop in clothing prices, inherited his entire estate of comparative observation—and by all means you should use the heirloom to good account.

Look around before you decide. Compare before you purchase.

We are perfectly willing to stand our new Schmidt suits at \$35, on either side of any competitive clothing value in the city—and let your own and your inherited judgments sway the decision.

Matt Schmidt & Son

ALASKA CIVILIZED BY ITS REINDEER

Eskimo Show Real Interest in Development of Reindeer Herds.

(Special to Post-Crescent.)

Washington.—The reindeer is civilizing Alaska.

It has pulled the Alaskan eskimos up through first stages of civilization from a race of hunters and fishers, and is rapidly establishing them as a pastoral people with property and community interests and a growing appetite for education.

This is the word brought to Washington by W. T. Lopp, superintendent of schools in Alaska, who conceived the idea of making the reindeer do something besides pull Santa Claus' sleigh.

Ten years ago, at Lopp's insistence, Uncle Sam imported a herd of 1200 reindeer from Siberia and placed them in charge of the school authorities in Alaska.

At that time the Alaskan eskimo was without any interest in life tending to stimulate community development. He lived by hunting and fishing. The only property he cared for was his hunting and fishing equipment. Today, however, the herd of 1200 reindeer has grown to 150,000. Of these 125,000 are owned by natives who have not only acquired this new property interest, but in acquiring it, have received a primary education and training in reindeer breeding.

For the herds, were developed and distributed through the school system, a man getting so many deer for so much vocational training work. Each graduate also must train an apprentice, the system thus being self-perpetuating.

Great Possibilities.

"There is reindeer moss enough in Alaska," says Lopp, "to maintain at least 4,000,000 reindeer."

"Alaska reindeer herds are sure to attain an important place as a supplementary source for the American meat supply."

"The deer now owned by the Alaskan herders are worth more than \$3,000,000, and the increase is mounting more rapidly each year."

It was applied to a fabled golden city; and finally to a fabled country abounding in almost inconceivable degree in gold and precious stones. The name has since been applied to any place abounding in gold or opportunities for acquiring sudden wealth, and more specifically, to a county in California, and a city in Colorado.

Q. Can you mix kerosene and grease to make a substitute for signal oil? D. V. S.

A. The Bureau of Mines states that it is not possible to make a satisfactory signal oil by mixing kerosene and grease. The Government specifications for signal oil are from 22 to 30 per cent prime winter strained hard oil or sperm oil with 500 degree mineral seal oil.

Q. Who, or what, was first known as El Dorado? H. O. W.

A. This is a Spanish word, meaning "the gilded", and was first applied to a South American king said to have covered his body annually with gold dust, and bathed in a sacred lake; then

The People's Forum

Soaks it to Us

Editor the Post-Crescent—In your publication of Monday you print an editorial, under the heading "Recognition of Russia." First I would like to call your attention to the fact that occasionally your paper comes into the hands of intelligent people, and second the fact that you insult their intelligence by publishing such gross misstatement of fact as appeared in the above mentioned editorial. In several different places you make the following statement, "John Spargo went to Russia," and then proceed to quote elaborate testimony from John Spargo.

I will not accuse you of falsifying for I think the case is more or less of gross ignorance, and in which case I wish to inform you that John Spargo did not go to Russia, John Spargo did however succeed in getting as far as Berlin, and that is as near Russia as he has ever been.

You will find favorable mention of Benedict Arnold in British History, and if it were published you would probably find Judas highly spoken of in "The Devils Memoirs." Thus it would be very consistent for our modern Pharisee and open shop advocate to laud the labor baiting likes of John Spargo and boost for the American Plan, which is a misnomer and should be "Foreigners Desired, but Orientals Preferred."

Yours for honesty in journalism, F. H. Shoemaker

REALTY TRANSFERS

Among the real estate transfers recorded at the office of register of deeds Tuesday were: Mary Landry to Thomas W. Landry, lot in Third ward, consideration, private; Farmers Equitable association to Seymour Equitable Exchange, land in Seymour, consideration, private; Abraham Cornelius to Mrs. Lillian Hanna, 10 acres in Osborn, consideration \$250; Welcome Creamery company to Carl M. Due, land in Deer Creek, consideration, private; Albert Klum to city of Kaukauna, lot in Kaukauna, consideration, \$950; John F. James to C. H. Breslin, land in Maple Creek, consideration, private.

Charges Dismissed

Charges against J. R. Nitkey, Kaukauna, who was alleged to have cashed a check on the Farmers Exchange bank, Green Bay, without having funds, were dismissed in Green Bay municipal court when Nitkey made proper restitution.

Re-elected Directors

Charles Hagen of this city and Senator Anton Kurkuk, Shawano, were unanimously re-elected directors of the Four Wheel Drive Auto company, Clintonville, at the annual meeting of stockholders.

Dr. Edward W. Cooney was called to Plymouth Tuesday on account of the illness of his sister.

MILWAUKEE MEN TO SPEAK TO SALESMEN

Interesting Discussions in Prospect for Vocational School Class.

L. D. Sawtelle, Milwaukee, is to speak to the merchandising class at the vocational school Wednesday evening. He will be accompanied here by Fred Fultz, a prominent Milwaukee business man who probably will deliver a brief address.
Supper is to be served at 6:15 and the lecture is to start at 7 o'clock. A half hour's discussion on the assigned lessons will follow, conducted by Hugh G. Coebett.
Mr. Sawtelle began his selling career as a shoe salesman, later became proprietor of a shoe store and is now connected with the State Security company, one of the large insurance firms of Milwaukee. He is reputed to have the best salesmanship lecture available in the city of Milwaukee.

Two copies are to be discussed following the lecture, "Finding and Holding the Customer" will include such phases as good window displays, attractive entrances, fixtures and counters, educational displays, special sales and price sales.
"How to Sell Selling Features of Goods" is the second topic. It will deal with new ideas in selling, styles and staples, color study, arguments, suggestions, price, quality and other features concerning merchandise.

KRUGMEIER AND JOHNS MENTIONED FOR STATE COURT

Attorney Krugmeier Declares Boom in His Favor Is All News to Him.

Two Appleton men, Joshua L. Johns and A. H. Krugmeier, have been suggested by Gov. John J. Blaine as desirable candidates for appointment to the Supreme court to succeed the late Justice J. C. Kerwin of Neenah, according to reports from Madison. Gov. Blaine has announced he will not make an appointment this week.
Mr. Krugmeier said Wednesday morning connection of his name with appointment to the Supreme court was all news to him. It is possible that his friends are booming him for the appointment without consulting him.
Mr. Krugmeier made it plain, however, that he is not seeking the appointment.
"I am a candidate for judge of the circuit court, not of the Supreme court," Mr. Krugmeier said.
Mr. Johns is a newcomer in Appleton, but is one of the best known lawyers in the eastern part of the state. He formerly was located along the lake shore where he took a prominent part in many activities. Mr. Johns was out of the city on Wednesday and could not be reached for an expression on his possible selection for the Madison court.

Attorneys from Green Bay were in Appleton Tuesday in the interest of Judge Henry Graess, who has been mentioned as a possible successor to Justice Kerwin. Considerable pressure is being used on the governor to secure his appointment.
Among other men mentioned for the appointment are Judge Heck, Racine; Judge W. B. Quinn, Marinette; E. J. Dempsey, Oshkosh; Judge C. A. Fowler, Fond du Lac; Judge L. H. Bancroft, Richland Center; C. Doerflinger, Milwaukee; Dan H. Grady, Portage; Walter Corrigan, Milwaukee; Judge E. B. Belden, Racine.

Disgusting Movies
To the Editor Post-Crescent—I wonder how many parents came away from the show "Dollars and Sense" with a feeling of disgust and resentment at a management that would suggest to the division of the proceeds thereof with the Camp Fire Girls organization.

After reading the advertisement for the show one would believe that he was going to see a decent, clean and proper display of dramatic art, but instead, from the very outset, the sensibilities of every one was offended by the display of the female form and actions in a most disgusting and suggestive manner, and especially was it offensive to parents because of the fact that they accompanied their young children owing to the special sale of tickets by the young girls of the community, an organization, the purpose of which is to aid in keeping our girls morally and physically strong, yet they are forced to look upon the presentation of a play that can but tend to tear down and destroy the good that such an organization purposes to accomplish.
On New Years day there was an equally offensive play put on at one of the show houses, following a preliminary comedy which lured many children to the show, and many parents, I know, came away from that play feeling that young children should not have had the opportunity of seeing such degrading and indecently suggestive stuff.
If adults find pleasure in witnessing such plays they have no fault to find with them, but it seems that whatever good may be provided by the various organizations in the city to which many of our good citizens are giving abundantly of their time and money should not be dissipated by the attendance of these children at shows that so wickedly and flagrantly violate every sense of decency and morality.
It is about time that the people of this community take a hand in this matter and insist upon only such shows for the children that are fit and proper for them to see, and the Woman's club, and allied organization, ought immediately to see to it that ordinances are passed authorizing the censoring of plays for the benefit and safety of our children.
W. H. Kreiss.

SENATE WANTS TO GET INFORMATION ON OIL SITUATION

Must Act Wisely to Conserve Oil for America, Phelan Believes.
By L. C. Martin
By United Press leased Wire
Washington, D. C.—Senate action to gain information on the world oil situation and its bearing on America's commercial diplomatic relations with other nations will be demanded shortly, Senator Phelan, California, announced Wednesday.
Phelan today declared that a crisis is at hand in the oil situation. Unless a wise policy is adopted without delay, he declared, the American merchant marine and navy will be left without adequate future supplies of oil.
Phelan's first step will be to seek action on a resolution calling on the state department for information concerning discriminations said to be practiced against American oil men desiring to develop foreign fields and inquiring what has been done to protect American rights.
"The oil question affects national prosperity intimately," said Phelan. "There is no law to prevent foreigners from taking our oil or possessing themselves of our oil lands. The president should have the power for an embargo and the state should deny ownership to aliens. The administration should demand for Americans equal rights for exploitations on mandatory territory and establish reciprocal treatment for warships and merchant marine in foreign waters."

W. H. Damon of Madison is an Appleton business visitor.
Alex Elmslie, a noted billiard player, was an Appleton visitor Tuesday.
P. H. Sharp of Oconto Falls, visited friends here Tuesday.

WOULD CHANGE RIVER LAND INTO GARDENS
Half a million dollar drainage proposition which it is believed will convert the low lands along Wolf, Embarras and Shioceton rivers and Black creek into a veritable garden and will include the straightening of Wolf river above the city of New London is being discussed at an informal meeting of property owners of that part of the county at the court house today. The project would reclaim thousands of practically worthless land in the northern part of the county. It is favored by Prof. E. R. Jones, head of the agricultural department of state university who wired that it would be impossible for him to be present and suggested that the meeting be postponed until a later date.

APPLETON CLOTHIERS AT MILWAUKEE CONVENTION
W. O. Thiede, E. E. Cahill and George A. Schmidt are among the Appleton clothiers attending the convention of the Wisconsin Retail Clothiers association in Milwaukee. The meeting closes Thursday evening.
Wednesday speakers include Gov. J. J. Blaine, who talks on "Wisconsin Business"; F. A. Cannon, Madison, secretary of the Wisconsin Good Roads association; Senator Oscar H. Morris and the Rev. W. T. Doward, Milwaukee.
Peter McBride of the Hurley and Reilly company will speak Thursday on "Local Association Possibilities."

Deaths
A. F. LIETZ
Word has been received here of the death at St. Mary hospital, Oshkosh, of A. F. Lietz, 610, a brother of William Lietz, Black Creek. Burial took place at Elie.
DR. GEORGE F. KING
Dr. George F. King, who served with the Red Arrow division in France, died in Green Bay as a result of gasping received during the World war. He was a captain in the medical corps and was attached to the Wisconsin National guard from the time it left for France. Dr. King was gassed about two weeks before the armistice was signed. On his return to America his ship was stranded off Fire island and Dr. King suffered severely from exposure. He was associated with Drs. R. E. and J. R. Minahan of Green Bay. He was 32 years old.
A. D. Weller has returned from Milwaukee, where he attended part of the sessions of the state retail clothiers' convention.
Mrs. Bertha Haseman submitted to a minor operation at St. Elizabeth hospital Monday.

SCOUT JAMBOREE WAS BIG SUCCESS

Demonstrations, Music and Speeches Are Given in High School Building.

Demonstrations, musical numbers, addresses and other exercises were given in high school auditorium Tuesday evening by boy scouts holding a public jamboree as the big event of scout anniversary week. There was a large attendance of parents and members of the Appleton Boy Scout council.
Music was furnished by the scout orchestra and community singing was led by Chester Roberts. The scouts renewed their allegiance to their oath at 8 o'clock, the hour set for this ceremony all over the country. T. A. Gallagher conducted this feature. An address by the Rev. G. B. Stickney, scoutmaster of Troop No. 8, on "The Significance of the Scout Oath," followed. He emphasized cleanliness and a moral, upright life.
Several troops acquitted themselves admirably with demonstrations. Troop No. 1 built various forms of pyramids. Troop No. 2 did a tumbling act. Troop No. 3 displayed semaphore signalling, use of neckerchiefs as life lines, and artificial respiration. Troop No. 4 demonstrated scout games. Troop No. 8 presented a comic act.
The roll of scouts was called by troops. Banners were distributed to members of the scout auxiliary fire department by Chief George P. McGilgan. They are of nickel and resemble those used by members of the Appleton department. Scout yells were led by David Bender.

ROBBIE STANDS PAT ON HIS 1920 CLUB

Brooklyn Mentor Confident He Will Be in Running Again Next Season.

By United Press Leased Wire.
New York.—Robbie and more than 100 others have been offered during the winter for ball players, trades and other trades have kept managers and owners away from the Brooklyn National league championship game seen by the press.

Robbie, satisfied with what he had done, Manager Robinson told the press.

"The club that was good enough to win the pennant last year is good enough to win the pennant this year."

Some talks figure we were lucky to win the pennant last year. I've got the finest pitching staff in the league. The training of Marquard to pitch makes us stronger in the box. Robbie is a youngster and a change of scenery will help them both. Robbie and Gimes are the best right handers in the league and our southpaw contingent will be at least as good with Smith. Robbie is a pitcher.

I would like to have a good catcher. Miller and Knepper are both good, but I need speed. But of the catcher, I would separate from one of my star pitchers. I could have had Hank Gowdy but I didn't need him that much. The infield will remain the same as will the outfield. We're not counting chickens before they hatch, but it seems reasonable that the win now last year ought to do it this year. Although it hasn't been done that way for several years.

"The Pirates will be dangerous the coming season and, of course, the Giants will be around while the Reds are not without hope."

BIG JEFF ADMITS HE HAS CHANGED

By the calendar Jess Willard is a year and six months older than when he lost his crown.

By his face he has aged more.

And it is the age which comes all in a moment—not by the clock.

Jess lived more years in the few minutes he spent in the ring with Dempsey at Toledo than he had ever lived before.

The memory of those terrible minutes are etched with the present lines on his face.

Willard's Words.

"I'm a changed man," says the World champion.

And he looks it.

"I'm bigger than ever," he says.

He looks that, too.

"I wanted money the last time I fought."

He doesn't need it now.

"I'll be fighting to get my crown back this time."

There's the difference between the Willard of a year and a half ago and now.

When he came to Toledo he thought like scores of his friends—he was too big to be knocked out. He figured Dempsey would go down under his slow sledge-hammer drives. He wasn't serious.

Today as he goes about his plans of selecting a training camp to meet Dempsey again he knows he can be knocked out by a smaller man. He knows he'll have to fight Dempsey differently. He is serious.

"It's pride—not money—that brings me back," says Jess.

Serious Now.

When he came to Toledo he thought like scores of his friends—he was too big to be knocked out. He figured Dempsey would go down under his slow sledge-hammer drives. He wasn't serious.

Today as he goes about his plans of selecting a training camp to meet Dempsey again he knows he can be knocked out by a smaller man. He knows he'll have to fight Dempsey differently. He is serious.

"It's pride—not money—that brings me back," says Jess.

MILWAUKEE WRESTLER WANTS TO MIX WITH HILL

Leland Jones, who gives Milwaukee as his address and managing wrestlers as his occupation, wants to break into the grappling game in Appleton. Leland says he is managing three wrestlers—Henry Nelson, heavyweight; "Cyclone" Sorenson, welterweight; and "Red" Jones, light-heavyweight. He wants to match his man Nelson with George Hill and expresses a lot of confidence in his protégé.

This Nelson fellow is said to have participated in 150 matches in the country and a lot more in Europe. He competed in the Olympic games of 1912, indicating he is no longer a spring chicken. Nelson has met Stecher, Dr. Roffer, George Vassel and other shining lights but friend Leland omitted to state how the meetings terminated. The big Dane is ready to tackle any heavyweight in the state but believes George Hill would be a most promising opponent. Carl Zill also would be acceptable meat. Manager Jones intimated.

Jones was just as enthusiastic about his other two near champions and is willing to set them against any men of their weight in the country.

RICKARD ALL MIXED UP OVER BIG TITLE BOUT

New York.—"Expect I better take a vacation and figure out what it's all about," Tom Rickard said today commenting on the report that Charles R. Cochran, the London promoter, would not withdraw from the Dempsey-Carpenter fight project.

"Jack Kearns says he has a cable from Cochran saying that he would not turn over the right to me and I have a cable from him myself telling that he was mailing his power of attorney to William A. Brady that he might sign the transfer papers for him," he said.

"I don't know what it's all about and I won't until Brady gets back from a western trip. There's nothing to get excited about. I, or we, or whoever stages the bout, have just about a month yet to straighten out the little matters connected with the bout."

Rickard has not heard a word from Carpenter regarding the percentage plan for the purse.

BOSTON LABOR IS TO BUILD HOUSES

Cooperative Scheme for Home-building is Launched by Builders Union.

Special to Post-Crescent.
Boston, Mass.—Organized labor has entered the field of general contracting.

With the purpose of establishing a self as a real factor in the campaign to speed up home building and to relieve the present shortage, the Building Trades Union Construction and Housing Council has been incorporated and is already on the job.

A complete set of officers, a staff of engineers and architects, and a committee on financing that has plans already developed for a cooperative bank, have been picked and 500 shareholders have signed up.

All of the building trades unions in Greater Boston are working together to a conference. No union officials were invited. The incorporation required.

Through the cooperative bank the council plans to finance the building of homes for members or outsiders, the bank taking the first mortgage.

At present the corporation is capitalized at \$100,000, divided into shares of \$10 each.

Material is being purchased in the open market but a cooperative home yard, gravel pit, lumber yard and a gradual expansion of the cooperative idea to other building materials, are planned for the future.

Union wages will be paid and union conditions observed.

A definite margin of profit for the council will be fixed by experiment and experience.

John P. Nelson, president, says that operations will be confined to Boston and the few cities and towns in the immediate vicinity.

New York has, however, inquired into the plan and Worcester is contemplating the formation of a similar

FEAR DEPRESSION MAY HIT BASEBALL

President Heydler of National League Won't Make Any Predictions.

By United Press Leased Wire.
New York.—Broadway, the Lambs and Friars clubs are jammed with actors out of work. A terrific slump has hit the theatrical business on the road.

It is being passed around in semi-seriousness that some \$200 a week stars are willing to become "bus boys" and cart away used dishes in the eating places where they used to tip with bills.

One of Uncle Wilbert Robinson's champions who winters across the bridge, remarked the other day:

"I wonder if the ball players will be standing around like that next summer?"

Some analysts think that the business slump will swing back on the national pastime next summer.

However, John A. Heydler, president of the National league, can't see it that way.

"I never have to make a business forecast of the future," he said here Wednesday.

"There are so many things and conditions that we can't figure."

"However, I can see no reason why the coming season should not be as successful as last year which was a record breaker."

Success is largely a matter of what kind of a game is offered. If fans need any assurance that baseball in 1921 is to be an honest game, I feel we have given them that assurance.

"We have punished the offenders as far as we have been able to do it and we are taking steps to safeguard the game in the future by seeking drastic laws in every state to curb gambling."

LAWRENCE IS SEEKING REVENGE FROM BELOIT

Inspired by their victory over the Michigan School of Mines Monday night, Lawrence college basketball players are putting extra pep into their preparations for the game with Beloit college here Friday night. Lawrence played its best game of the season Monday, rousing the ball in good style and carrying the baskets with splendid accuracy.

The game was slowed up slightly by fouls. The referee watched the players carefully, penalizing them for slight infractions of the rules. This makes the game cleaner but detracts from interest inasmuch as it breaks up many plays.

Beloit defeated Lawrence on the former's home floor by one point in a heartbreaking game. It was the first game Lawrence had played away from its home gym and the local team was at a disadvantage.

REALTY TRANSFERS

Among the real estate transfers recorded at the office of register of deeds Monday were: Pierce Land Co. to Louis H. Klebesadel, land in Third ward, consideration, private; N. A. Greenlaw and E. W. Thomas to Theodore Larson land in Dale, consideration private; Henry VanDell to Leonard Pynenburg, lot in Little Chute, consideration, private.

E. Jones of Milwaukee, was a business visitor Monday.

"Just Between You and Me" says the Good Judge

Here's genuine chewing satisfaction for you, hooked up with real economy. A small chew of this class of tobacco lasts much longer than a big chew of the ordinary kind—that's because the full, rich, real tobacco taste lasts so long.

Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

W-B CUT is a long fine-cut tobacco
RIGHT CUT is a short-cut tobacco

PENROSE BACKING MELLON FOR POST IN NEW CABINET

Pittsburg Millionaire Given Chance to Beat Dawes for Treasury Job.

Special to Post-Crescent.
Washington.—The most bitterly contested of all inside political battles over the Harding cabinet appointments centers on the selection of the next secretary of treasury.

Three weeks ago Harding had practically settled on Charles G. Dawes of Chicago for this post.

Today men close to Harding believe the edge is in favor of Andrew W. Mellon, Pittsburg capitalist and banker.

Mellon is supported by Senators Knox and Penrose.

Fight Against Dawes

Dawes is hampered by the danger that his appointment would drag into international politics the old Lowden-Thompson political feud in Illinois.

Also, influences which supported General Wood for the presidential nomination are arrayed against Dawes.

The intimation is that Dawes' appointment would set the new administration under way with the hostility of the Wood people generally and of the Thompson followers in Illinois.

Dawes served on General Pershing's administrative staff in France and was instrumental in putting Pershing's name on the primary ballot in Nebraska in order to prevent Wood from capturing the Nebraska delegates.

This was an under-cover Lowden play, as Lowden was expected to get the Pershing delegates' vote when the break should come in the convention.

Battled in Illinois

Dawes also took an active part in Lowden's Illinois campaign, where the fight was chiefly against the Thompson organization, which was supporting Hiram Johnson.

The bitterness engendered in this fight reached its climax when

Thompson and his delegates withdrew from the floor of the convention and attempted to start a Johnson third party movement.

Penrose and Knox are capitalizing these objections against the availability of Dawes in urging the eligibility of Mellon.

Mellon's Millions

Mellon never has been politically active and has no political enemies. One question that has been raised, however, is how the public generally would regard the appointment as treasury head of a man of Mellon's immense wealth.

It is stated that the Mellon family fortune, including that of the proposed treasury head and two tanker brothers, is second only to the Rockefeller fortune.

Perhaps of some significance is the fact that Mellon within the past few weeks has resigned from the board of directors of the Pennsylvania railroad.

Should Mellon land the treasury post, inside gossip has it that Lowden would again come to the front as a cabinet probability, possibly being offered the secretaryship of the navy, with John W. Weeks of Massachusetts getting the army portfolio.

ZBYSZKO THROWS CUTLER IN TWO STRAIGHT FALLS

By United Press Leased Wire.
Milwaukee.—Stanislaus Zbyszko, Polish star, put all championship thoughts out of Charlie Cutler's head last night by throwing the veteran

Chicago heavyweight in two straight falls. The first fall was obtained in 43 minutes with a double wrist lock, and the second in six minutes, on a flying fall.

Johann Schütz threw Tony Hatches in one fall and Ren Stefanski pinned Swede Peterson's shoulders to the mat.

BASEBALL GAMBLING SHOULD BE FELONY

New York. Laws making it a felony to bet on baseball games in every state in which the National league operates. John A. Heydler, president, said Wednesday.

Heydler has returned from a meeting of the advisory committee of baseball with Judge Landis. He denied that Garry Herrmann had been sent before the Ohio legislature to lobby for such a bill in the Buckeye state, saying he had gone of his own volition.

"We would like to have uniform laws passed in every major league state," Heydler said.

"But this seems impossible. We would have then a law making a felony to offer or accept a bribe for the purpose of influencing a game. The penalty should be imprisonment not a fine."

ROOFING

A durable and waterproof roof is as essential to any building as a solid foundation.

We suggest that you consult us when in need of a new roof or the repairing of the old.

Our Roofing is approved by the National Board of Fire Underwriters. Sparks and embers alight harmlessly upon it. They are fire safe.

Have your leaky roofs repaired before the heavy spring rains come. Delay causes damage and annoyance.

Let us estimate the cost now!

SAINTLY MAYORS

FOR WICKED CITIES

IS VOLIVA'S PLAN

Real Rule of Iron Predicted for Future by Emmissaries of Zion City.

New York—Rule with a "rod of iron" beside which a blue law regime will look like a rubber wand, is in store for America, according to the Misses Helen Buhman and Belle Schelhorn, advance guard of the hosts from Zion City, Ills., who are to tame New York.

"The time is coming soon," they said, "when all the saints now on earth will have to be put on immortality. Then it is altogether likely that Wilbur Glenn Voliva, our overseer, may be appointed to rule New York as mayor. When that has happened, only the wicked will be left and the city will be ruled with a rod of iron."

"What will these people who cringe now at the mention of blue laws, be thinking then?"

New York will not be singled out. Chicago will have another "saint" as mayor: Omaha, Des Moines, Minneapolis and San Francisco, and all the cities in between will be so ruled, they said. Then there will be no:

Dancing, jazz music, Sunday amusements and Sunday papers, no tobacco, no alcohol, no silk stockings, no peacock or fringed waists, and no skirts revealing more than three inches of footwear.

Also the churches will be filled for ten hours each Sunday and at lesser meetings during the week. Oysters will pile up and fatten in their beds and swine will not contribute to the wealth of packers; no one will eat them.

The bearers of this notice were two mild women who have spent most of their lives lashing Satan as they found him in Canada, the west coast states and the south.

Once—in 1904—they came to New York with a trainload of Dowle converts and spent two weeks trying to reform the city. The citadel of wickedness did not fall that time but the two veterans have more hope for this assault.

Establishing headquarters on 45th street where the windows of their little second floor room is illuminated at night by the flare of the great white way, they planned their campaign.

"We are used to campaigning and New York does not frighten us in spite of the sin of these wicked hotels and dancing parlors and theaters. We have been questioned by police, ordered out by housewives and chased by dogs and this city can't frighten us."

"Blue law agitation is just a sign of the commotion going on," Miss Buhman declared.

"But it isn't a beginning to what will happen when the saints have been taken above and then sent back to rule the wicked remaining on earth."

The Appleton Motor Boat club will hold a special meeting at its club Thursday evening for the purpose of outlining its summer program.

HOUSES FOR SALE

KAUKAUNA LEGION PLANS MINSTREL

Fox Club Basketball Team Set for Battle With Brillion Quint.

(By Staff Correspondent)
Kaukauna—With the addition of Bill Waterpool and "Red" Lindauer to the Fox club team, fans may expect a whirlwind of a game Wednesday night at the auditorium. The Brillion team which has the distinction of being one of the few undefeated teams in the state will be here for a game. Brillion has a wonderful team this year. If reports can be relied upon, and there is no doubt that the Fox club team will have its hands full. Waterpool and Lindauer will probably play forward positions. Hess undoubtedly will jump. There is plenty of material to pick from for the team. Spindler is an old high school star. Hustling, the Brenzel brothers, Remcke, and a raft of others will be prepared to go into the game at the word of Coach Cub Buck.

A lively preliminary game will be staged between Mulford's Clothing boys and a team from Appleton. Legion Minstrel Routine business was transacted at a meeting of the Kaukauna Post No. 4 of the American Legion Tuesday evening in K. C. hall. The legion is preparing to put on a minstrel show after Easter. The name of the play is "Hoop-La," and it is put on by the John B. Rogers Producing Co. The show is a live one and it will be made very realistic by men who have been in the south and know all about minstrel.

Install Fixtures New electric fixtures are being installed in the Darby church. The firm of Gus Johnson and Son is doing the work.

German Reading Circle Mrs. F. T. Wiggers will entertain the German Reading circle at her home, Fifth-st., Thursday afternoon. The regular order of discussion will be taken up. Refreshments will be served.

Entertainers at Luncheon Mrs. William Tenneson entertained eight ladies at luncheon at her home Monday night.

Elks Elect Officers Election of officers will be held at the regular meeting of the Elks lodge Thursday evening in Elks hall. A record attendance is expected.

Entertainers at Dinner Miss May Lapaent entertained six friends at the home of Mrs. Julius Lapoint, Little Chute, Monday evening. The evening was spent in social enjoyment and refreshments were served.

Four-in-One Club The Four-in-One club will meet Wednesday evening in the club rooms. A social evening will be enjoyed and refreshments will be served.

Young Ladies Party The Young Ladies sodality of Holy Cross church gave a card party Tuesday evening in Forester hall. Schafkopf and hearts were played.

Birthday Party The birthday anniversaries of Mrs. Archie Creveier and Frank Mitcheke were celebrated at Mr. Mitcheke's home Sunday evening. The affair was a surprise and was a "character party." A cafeteria lunch was served at 6 o'clock. Six couples attended.

Camp-Fire Meeting An open meeting of the Camp-Fire Girls for all girls of the high school was held Monday evening in the kindergarten. The evening was spent in playing games and social pleasure. The guests appeared at the meeting dressed as little girls. Miss Lorraine Hansen won the prize for being the best appearing "school girl." Refreshments were served.

Dancing Party Eugene Van Able entertained 18 friends at a dancing party at his home Third-st., Tuesday evening. Refreshments were served at Mulholland's Tea shop.

Moves Business L. C. Foshan is moving his undertaking establishment to his new location, next to the Arcade. He was previously occupying a building a few doors west of the Grand View hotel.

In re estate of Catherine Thomas, and her daughter of Chilton, were visitors at the home of Mr. and Mrs. Mike Ryan Sunday.

Misses Regina Junk and Mary Wellner spent Sunday in Appleton.

Mrs. Russell Juno of Appleton, was a visitor in the city Tuesday.

Miss Anna Sprangers was a visitor in Appleton Sunday.

Miss Elizabeth Mickie called on friends in Appleton Sunday.

Miss Elizabeth Hens visited friends in Oshkosh Monday.

The Misses Gille and Gertrude Timmers of Green Bay spent the week end at the home of Mike Ryan.

Miss Ethel Vandenberg has given up her position in the First National bank and has gone to work in Stanley, her home town.

Miss Sadie Lynch of Kimberly, was a visitor in Kaukauna, Monday evening.

Mr. and Mrs. M. Streick returned Tuesday evening from a trip to Milwaukee.

Mr. and Mrs. Edward Gatto of Sherwood spent Tuesday at the home of Mrs. John Wolf.

Gus Johnson was a Green Bay visitor Monday.

Mr. Albert Wolf called on friends in Green Bay Monday.

Mrs. Michael Maher of Green Bay.

FOUR TOWNS HAVE MADE TAX SETTLEMENTS

Only four towns and villages, Center, Dale, Ellington and Shiocton, have so far turned in their state and charitable institution taxes to Louis A. Peterson, county treasurer. Center paid \$5,425.73 state tax and \$209.92 charitable institution tax. Dale, \$5,809.99 state and \$156.09 charitable institution tax. Ellington, \$4,941.87 state and \$181.20 charitable institution tax. Shiocton, \$659.89 state and \$25.50 charitable institution tax. Shiocton also paid its school tax, \$1,080.67. Town, village and city treasurers are required by law to settle with the county treasurer not later than March 1.

GIRLS MEET THURSDAY TO REORGANIZE GLEE CLUB

There will be a reorganization meeting of the glee club of the Appleton Women's club at 7 o'clock Thursday evening in the Appleton Women's club. Several girls signed up for the class the second semester and with the members of the first semester club as a nucleus, it is expected a splendid organization will be perfected.

Miss Eleanor Schneider will direct the club. The gathering is especially important because the time of meeting will be decided and the election of officers will be held. The club will meet regularly in the rooms instead of in the high school.

deceased, petition for discharge of Catherine Hartman, executrix, filed.

In re will of Anna F. C. Vanden Heuvel, deceased, petition for probate of will filed and order entered fixing March 1 as date for hearing said petition and June 7 as date for filing claims.

General inventories and appraisals were filed in the estates of J. H. Marston, John Ring and Emma Catlin.

ARE PRICES LOWER?

This question seems uppermost in the minds of the majority of folks now-a-days, and to be sure it is a question most interesting. Absolute proof of lower prices is shown on page 3 of this issue where Glouman-Gage Co. have compiled a list comparing prices of the present day with those prevailing September first, 1920. DO NOT FAIL TO READ IT.

SAYS HE COULDN'T STAY ON THE JOB

Grand Rapids Man's Health Was Badly Run Down, But Tanlac Restores Him

"Since taking Tanlac I can drive as many nails as any man on the job," said A. H. Van Order, 830 Watkins street, Grand Rapids, Mich., a well-known contracting carpenter.

"During the past year I gradually became run down, had no appetite and my liver and stomach were out of order. Finally I became almost afraid to eat anything because I dreaded the suffering I knew so well would follow."

"I couldn't sleep at night and mornings I got up with a mean, sickening taste in my mouth and feeling so bad I could hardly stay up. It seemed that I couldn't get my liver regulated, although I tried nearly everything in the way of medicine."

"Finally I got in such a bad condition I couldn't stay on the job, and many mornings I just went out with my men, started them off for the day and then went back home. Often I was so near played out I could hardly walk a few steps without being all out of breath."

"But it wasn't long after I started taking Tanlac before I began to straighten right up. I have a fine appetite now, eat anything I want and my stomach is in such good condition nothing hurts me the least bit. My liver is acting perfectly. I never have that bad taste in my mouth any more and I always feel fine. I sleep like a log every night, too, and I am once more feeling like a real man, and I praise Tanlac every chance I get."

Tanlac is sold in Appleton by John E. Volter, F. O. Brown, Shiocton; Dr. J. M. Sattler, Bear Creek; H. E. Abend, Dale; R. E. Lowell, Little Chute.

Lenten Services Planned For All Local Churches

Ash Wednesday Puts Quiet to Social Events for Next Forty Days.

Ash Wednesday ushers in the lenten season when special services are conducted in all local churches. Lent is the 40-day fast starting Ash Wednesday and extending to Easter Sunday, commemorative of the fast of our Savior. It is a time for serious thoughtfulness and a time for winning new ground in the progress of the soul, a time for the recovery of any habit of devotion or faithfulness. It is now the time to prepare our hearts to share the great joy and blessing of Easter.

Many persons will give up dancing, the theatre and other entertainments during this period of self denial. Card parties and social functions will be discontinued generally. Many churches are observing the lenten season as a period in which to prepare the older boys and girls and adults for church membership Easter Sunday. Special music will feature a majority of the services during this season. Protestant churches will conduct regular Sunday services and some of them plan midweek services. Catholic churches as a general rule will hold services throughout the week.

At All Saints Episcopal church there will be services every day, with special services on Sunday. Memorial Presbyterian church will conduct cottage prayer meetings Thursday evenings. First Methodist church will conduct special services during passion week and will also present a cantata. On Easter Sunday the Sunday school will put on a special program. Zion Lutheran church will hold special services on Thursday evenings. Sacred Heart church will conduct special services Wednesday and Friday evenings as will the St. Joseph

and St. Mary churches. First Congregational church will conduct special Sunday services and form classes for those who will enter the church Easter Sunday.

Trinity English Lutheran, Mt. Olive, First English Lutheran churches will also conduct special services during the week and Sundays. First Baptist church will also conduct special Sunday services.

Thursday, March 24, the eve of Good Friday will find many of the churches holding special services. Easter Sunday falls on March 25 and all churches will conduct special Easter services, with special music.

WINTER SESSION OF BOARD OPENS FEB. 23

The regular February session of the county board will open at the courthouse Wednesday, Feb. 23, and will continue in session for four days. Bills will be allowed and other business disposed of. So far as is known nothing of importance will come before the members.

NOURISHMENT is Nature's first aid to the body in times of weakness.

Scott's Emulsion unsurpassed in purity and goodness, is nourishment in a form that seldom fails.
